

Please find attached pics of Eiko, who is our 10 year old male. He came to us from America, where his daddy was a multiple world champion. He was a very fussy dog when we first brought him to South Africa. We tried all types of dog food to get him to put weight on and mature. But to no avail until we tried Complete. He has never looked back from that day. He became a Breed Champion and amongst his many wins was a best in show at an All Breeds show. He is now retired but still enjoys life to the full especially when meal time comes around. Since trying your food all the dogs we have owned over the years have been raised on your food. When we were breeding we recommended your food to all our new puppy owners. During all the years we have used complete the quality of the food has been great, and we have never had a complaint.

Cheers

Dave & Elaine Jones
