

## VAN RITTERHOF ROTTWEILERS

Jan Erasmus Cell: 082 803 1308

I have been breeding with Rottweiler's since 1982 and starting using Complete Dog Food in 2004. Since my dogs have been on Complete, their bowel movements have been firmer, smaller and healthier, and they do not suffer from diarrhoea anymore.

I have found that it is not necessary to feed the pregnant bitches any supplements as the Complete is fully balanced and nutritious.

Their overall condition and coats have improved significantly since using Complete as previously they sometimes suffered from eczema. My dogs have not had any skin problems since 2004 and their coats are beautiful and shiny, with no more scratching.

I have recently started feeding Complete Puppy Food to my puppies and have found that they flourish on it.

I would recommend Complete Dog Food to any breeder or owner who wants to maintain their dogs in a good, healthy condition.

Jan Erasmus

Sheba's puppies – 2 weeks old

Sheba 3 yrs old – In excellent condition after having 8 puppies two weeks earlier!

Tasmin 9 yrs old – Beautiful old girl!

Zarp – 4 month old

Bonita – 4 yrs old
